The book of Leviticus provides us with a complete Christology; Jesus Christ is presented throughout this book as a type; His work and person are the antitype.

Updated September 27, 2024

There are two documents designed for the study of Leviticus:

1. An early exegesis of the **book of Leviticus** was attempted by me in the late 1990's. ([HTML](#)) ([PDF](#)) ([WPD](#)). 267 pages.
2. This document you are reading links you to the **chapter-by-chapter study of Leviticus**. The links to this document are: ([HTML](#)) ([PDF](#)) ([WPD](#)) ([Folder](#)). So far, the 1st and 2nd draft exegesis of this project is 4828 pages. All of the material found in the single book was transferred to each chapter document.

Still in 1st draft status: **Leviticus Introduction, Leviticus 13–27**; 2nd draft status: **Leviticus 1–12**.

I have noticed that the notes from Leviticus were not transferred over for Leviticus 14 & 15.

At this moment, there are only **two sets** of documents on my site on the **book of Leviticus**.

There is **the first study** which I did at the end of the 1990s. ([HTML](#)) ([PDF](#)) ([WPD](#)). This entire document includes every verse of Leviticus and it is 267 pages.

The second study is **the chapter-by-chapter study** done in the 2020s. This document contains the links to those individual chapters. Everything in the original study has been

HTML Documents (converted from WordPerfect to HTML)

There should no longer be any problems with the graphics or the Hebrew characters in any of the HTML documents listed below.

| Leviticus Introduction (html) | | | |
|---|-------------------------------------|-------------------------------------|-------------------------------------|
| Leviticus 01 (html) | Leviticus 02 (html) | Leviticus 03 (html) | Leviticus 04 (html) |

PDF files (WP converts the original document into a pdf format)

A possible problem with the following pdf files is, they are quite large and they may not display on computers with limited memory (a typical chapter will be 200–300 pages long). If that is the case, then you should be able to right-click the link, choose *save as*, and put the file on your hard drive and open it there using [Adobe Acrobat Reader](#). That will give you a complete view of the graphics and the Hebrew characters. However, since WordPerfect now properly prints out Hebrew words (reading from right to left), HTML files also properly display the Hebrew characters, but the PDF files read left to right. In older documents, I placed each letter where it belonged by typesetting, and WP and PDF would display properly (but this would not transfer to HTML documents). For most people, this does not mean anything, but I did have one person who noticed the problem in the PDF documents.

Word Perfect Documents (these documents were created in WordPerfect)

The following documents will open up on your computer, either into WordPerfect or into Word (although the formatting might be a little funky in Word). If you download one of these documents from my website and it downloads with a different extension (like *.htm), simply change the extension. If you are doing many files, you may want to use a program like Bulk Rename Utility.

Now and again, I have seen that I have made some mistakes in spelling as well as in the morphology (I took the information from Owens, but changed it whenever there was a mistake in his work). If you discover mistakes, then I would want to know what they are so that I could change them and update the documents. I enjoy studying the Word of God, but I so hate to proofread.

For most chapters, the original wpd (WordPerfect document) is also available online. Just go to <http://kukis.org/Leviticus/>, right click, and choose save as. These documents will open in WordPerfect and sometimes in Word (although that is a semi-dicey proposition). Each document (chapter) is typically around 100–300 pages.

**At this point, I am using 40+ translations as my starting point.

***Notes from Leviticus not transferred over.

Even though I would like to do more study on each chapter, most of these chapters will be done just through the first 3 "X's".
